

Fencing

Just as our indoor spaces need walls to define them, so outdoor areas need imaginative fencing to enhance their boundaries. Our fencing range caters for every demand, from practical to creative, from traditional to modern, from discreet to design statement.

Continental Range

An exciting selection of designs with a distinct pattern to the overlapped timber. Pressure treated in a natural green colour, different designs can be put together to produce a stylish and unusual effect.

Vertical Board Panels

Lattice Lap Panels

Traditional Lap Panels

Traditional Fencing

All of our traditional rough-sawn fence panels are dipped honey-brown. We advise the inclusion of gravel boards when erecting any fencing in order to prevent ground contact and potential rot from occurring.

1 2 Picket Fencing & Gate

Fencing, Gates & Fencing Posts

Picket fencing is the ideal choice for a more informal look, making it suitable for a country location or where a cottage garden look is desired! The picket fencing and gate, the vertical board and traditional lap gates all come in a dipped honey-brown finish.
